SUMMARY

Java Full-Stack Developer with a strong foundation in Core Java, OOP, Spring Boot, REST APIs and MySQL, along with practical experience building web interfaces in React.js. Quick learner who enjoys solving problems and writing clean, maintainable code. Seeking an entry-level Java Developer role where I can apply my technical skills, learn from experienced engineers and contribute to the team's goals.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL
Backend: Spring Boot, Spring MVC, Spring Security, JWT, Hibernate / JPA, REST APIs, Node.js, Express.js
Frontend: React.js, HTML, CSS
Databases: MySQL, MongoDB, PL/SQL
Tools: Git, GitHub, Maven, Postman, Swagger, STS, VS Code, Railway

PROJECTS

CareerCompass – AI-Powered Career Roadmap Platform *May 2026 – July 2026*
Java 17, Spring Boot 3.2, Spring Security, JWT, MySQL, Gemini API | GitHub

- Built a full-stack platform that uses the Gemini API to generate personalised week-by-week roadmaps for any IT role, aimed at fresh graduates and gap-year candidates.
- Added resume and LinkedIn improvement tasks in weeks 1–2 for gap-year candidates, before the technical roadmap starts.
- Implemented JWT authentication with Spring Security 6: BCrypt hashing, stateless sessions and protected API routes.
- Designed 9 JPA entities and a @Transactional service that saves 40+ tasks atomically, rolling back on failure; used DTOs to keep password hashes out of API responses..

Agri-ALLiance – Agricultural Management Platform *Aug 2024 – Oct 2024*
Java, Spring Boot, REST APIs, MySQL, React.js | GitHub

- Built 15+ REST endpoints in Spring Boot for crop records, equipment bookings and user roles.
- Designed a normalised MySQL schema and added role-based access for admin and farmer users.
- Built the React screens for bookings and resource management.
-

Connectify – Social Media Application *Dec 2023 – Jul 2024*
React.js, Node.js, Express.js, MongoDB | GitHub

- Full-stack social media app with user login, profile management and posts.
- Wrote 10+ REST endpoints in Node.js and Express for user and content operations, with data stored in MongoDB.

EDUCATION

PG-DAC (Java Full-Stack) – Centre for Development of Advanced Computing (CDAC), Pune *Mar 2024 – Oct 2024*
B.Tech, Instrumentation & Control Engineering – Vishwakarma Institute of Technology, Pune *Aug 2019 – Jul 2023*

CERTIFICATIONS

Python for Data Science – NPTEL (IIT), Jul–Aug 2025
HackerRank Java (Basic)
Problem Solving Techniques – LinkedIn Learning
Data Analytics – LinkedIn Learning
